## FZU Computing Center

*Tuesday 9 February 2021 09:50 (20 minutes)*

Computing Center operated at Institute of Physics of the Czech Academy of Sciences hosts WLCG Tier-2 center, cluster LUNA connected to the Czech national grid infrastructure Metacentrum and cluster Koios for local users. External computing and storage capacities are transparently connected. I will give an overview of the available hardware, management, and operational procedures and compare usage patterns of different scientific groups.

**Presenter:** CHUDOBA, Jiří (FZU)

**Session Classification:** Main session
