WED-PO2-116 Resistive acclerator magnets I (10:30 - 12:30)

| [id] title | presenter | board |
|--|--------------------------|-------|
| [331] Analysis of Coupled Electromagnetic Thermal Effects of Scanning Magnet for SESRI | LU, Jia-Qi | |
| [254] Development of Radiation-Resistant Warm Magnets using Cyanate Ester Resin | Prof. TAKAHASHI, Hitoshi | |
| [262] The Pole Profile Optimization of High-gradient Quadrupole for the HALF Storage Ring | CHEN, Yuan | |
| [277] A New Branching Point and Primary Beam Line at the J-PARC Hadron Experimental Facility | Mrs HIROSE, Erina | |
| [100] 3D modeling of the decapole corrector for the FAIR project | RIABCHENKO, Kseniia | |
| [129] Design, Manufacture and Measurement of three Permanent Magnet Dipoles for FASER Experiment | THONET, Pierre Alexandre | |
