

MT27, 27th International Conference on Magnet Technology

Thursday 18 November 2021

THU-PO3-617 Other Components for Magnets (10:00 - 12:00)

[id] title	presenter	board
[97] Deformation of Copper Matrix Conductors under Cyclic Loading	HAN, Ke	
[339] Optimal operating conditions of YBa ₂ Cu ₃ O _y HTS diode with a PrBa ₂ Cu ₃ O _y buffer layer	Mr MIZUNO, Akihito	
[166] Electromagnetic Characteristics of a Bitter-like HTS Magnet Excited by Flux Pump with Thermal Switch	WANG, Jiawen	
[735] Repetitive irradiation tests at cryogenic temperature by neutrons and protons on stabilizer materials of superconductor	YOSHIDA, Makoto	
[943] A Novel High Heat Capacity Resin for Impregnation of Nb ₃ Sn Superconducting Magnets	KIKUCHI, Akihiro	
[849] Mechanical and thermal properties of glass fiber-filled thermos-plastic materials for magnet and cryogenic applications	TOPLOSKY, Vince
