

# Opportunities of OO and pO collisions at the LHC

## Friday, 5 February 2021

### Soft dynamics of small systems - Zoom (14:30 - 15:50)

-Conveners: Huichao Song

time	[id] title	presenter
14:30	[10] Collectivity and QGP signals in Large and Small systems	ZHAO, Wenbin
15:10	[11] Dynamical Modeling of the Collectivity in pO and OO Collisions	Dr SHEN, Chun

### Soft dynamics of small systems - Zoom (16:05 - 17:25)

-Conveners: Derek Everett

time	[id] title	presenter
16:05	[12] Multiplicity and flow in O+O collisions from the EKRT model	NIEMI, Harri
16:35	[13] Bayesian Analysis of Oxygen-Oxygen Collisions	NIJS, Govert
17:05	[22] Hadron yield ratios in dynamical core-corona initialization from small to large systems	HIRANO, Tetsufumi KANAKUBO, Yuuka

# Wednesday, 10 February 2021

## Soft dynamics of small systems - Zoom (17:10 - 17:50)

-Conveners: David Dobrigkeit Chinellato

time [id] title

presenter

17:10	[34] A Pythia/Angantyr perspective on OO and pO collisions	BIERLICH, Christian
