

Session Program

4-10 Feb 2021

Opportunities of 00 and $p0$ collisions at the LHC

Soft dynamics of small systems

CERN, Zoom

Friday 5 February

14:30

Soft dynamics of small systems

Session | Location: CERN, Zoom | Convener: Huichao Song

14:30-15:10 **Collectivity and QGP signals in Large and Small systems**

Speaker

Wenbin Zhao

15:10-15:50 **Dynamical Modeling of the Collectivity in pO and OO Collisions**

Speaker

Dr Chun Shen

15:50

16:05

Soft dynamics of small systems

Session | Location: CERN, Zoom | Convener: Derek Everett

16:05-16:35 **Multiplicity and flow in O+O collisions from the EKRT model**

Speaker

Harri Niemi

16:35-17:05 **Bayesian Analysis of Oxygen-Oxygen Collisions**

Speaker

Govert Nijs

17:05-17:25

Hadron yield ratios in dynamical core-corona initialization from small to large systems

Speakers

Tetsufumi Hirano, Yuuka Kanakubo

17:25

Wednesday 10 February

17:10

Soft dynamics of small systems

Session | Location: CERN, Zoom | Convener: David Dobrigkeit Chinellato

17:50

17:10-17:50 **A Pythia/Angantyr perspective on OO and pO collisions**

Speaker

Christian Bierlich
