

Session Program

7-11 Dec 2020

Zimányi School 2020

QCD phase diagram (section chair: Máté Csanád)

Zoom

<https://cern.zoom.us/j/99132101453> (full Zoom link and password was distributed in email)

Monday 7 December

08:00

QCD phase diagram (section chair: Máté Csanád)

Session |

Location: Zoom, <https://cern.zoom.us/j/99132101453> (full Zoom link and password was distributed in email)

08:00–08:05

Opening

Speakers

Peter Levai, Peter Levai

08:05–08:50

An Effort toward High Density Matter

Speaker

Shoji Nagamiya

08:50–09:10

Pre-equilibrium quark-gluon plasma and its connection to hydrodynamics

Speaker

Dr Xiaojian Du

09:10–09:25

Deconfinement and the explicit center symmetry breaking in a strong magnetic field

Speaker

Michal Szymanski

09:25–09:40

Dilepton Signature of a First-Order Phase Transition

Speakers

Ayon Mukherjee, Ayon Mukherjee

09:40–09:55

Momentum resolution correction in femtoscopic measurements

Speaker

Mr Pavel Szymanski

09:55–10:10

Femtoscipy of neutral kaons

Speakers

Diana Pawłowska, Diana Pawłowska

10:10
