

# Zimányi School 2020

## Tuesday, 8 December 2020

### Photons and dileptons (section chair: Péter Kovács) (11:00 - 13:00)

time	[id] title	presenter
11:00	[28] Isolated photon production and pion-photon correlations in high-energy pp and pA collisions	Dr SUMBERA, Michal
11:30	[29] Dilepton production via photon-photon fusion in semicentral heavy-ion collisions at small transverse momentum	Dr KLUSEK-GAWENDA, Mariola KŁUSEK-GAWENDA, Mariola
12:00	[30] System size and centrality dependence of dilepton radiation at $E_{\text{beam}} = 1.23A$ GeV with HADES	HARABASZ, Szymon HARABASZ, Szymon
12:30	[31] Isolated photon production in pA collisions from CGC	PERKOV, Anton
12:45	[32] Study of central exclusive production in proton-proton collisions at 510 GeV with STAR detector at RHIC	TRUHLÁŘ, Tomáš
