

# Zimányi School 2020

## Friday, 11 December 2020

### Vorticity and outlook (section chair: Boris Tomásik) (08:00 - 10:05)

| time  | [id] title   | presenter                         |
|-------|--|-----------------------------------|
| 08:00 | [92] Polarization in relativistic heavy ion collisions                   | BECATTINI, Francesco              |
| 08:30 | [93] Spin polarization in Heavy-Ion Collisions                           | SINGH, RAJEEV<br>Mr SINGH, Rajeev |
| 08:45 | [94] Hydrodynamical final state parametrizations and baryon polarization | NAGY, Marton<br>NAGY, Marton      |
| 09:05 | [95] Radiation reaction: charge distributions or point charges?          | VÁN, Peter<br>VÁN, Peter          |
| 09:35 | [96] Gintropy: entropy formulas based on the Gini index                  | BIRO, Tamas<br>BIRO, Tamas Sandor |
