

TIPP 2021

Tuesday 25 May 2021

Experiments: Calorimeters: Tuesday Late (09:30 - 11:00)

-Conveners: Francois Corriveau; Gerald Blazey; Gerald (Jerry) Blazey

time	[id] title	presenter
09:30	[273] Crylin: crystal calorimeter with longitudinal information for a future muon collider	SARRA, ivano
09:48	[594] CALICE SiW ECAL - Beam test performance of a technical prototype of a highly granular silicon tungsten calorimeter	Dr JIMENEZ MORALES, Fabricio
10:06	[591] CALICE SiW ECAL - Development and first beam test results of detection elements using Chip-on-Board Technology	POESCHL, Roman COLLABORATION, CALICE
10:24	[473] Calorimetry for the Electron Ion Collider	WOODY, Craig
10:42	[676] Calibration and Performance of the CMS Electromagnetic Calorimeter in LHC Run 2	WANG, Jin

Wednesday 26 May 2021

Experiments: Calorimeters: Wednesday Early (05:30 - 07:00)

-Conveners: Vincent Boudry

time	[id] title	presenter
05:30	[614] Test beam performance of a digital pixel calorimeter	YOKOYAMA, Hiroki
05:48	[588] Simulation of a SiW pixel calorimeter	ROGOSCHINSKI, Tim Sebastian
06:06	[571] Development of a highly granular scintillator-tungsten electromagnetic calorimeter prototype for the CEPC	NIU, Yazhou
06:24	[564] Calorimetry with Extremely Fine Spatial Segmentation	BILKI, Burak
06:42	[290] Compact LumiCal prototype tests for future e+e- collider	IDZIK, Marek

Experiments: Calorimeters: Wednesday Middle (07:30 - 09:00)

-Conveners: Francois Corriveau

time	[id] title	presenter
07:30	[719] The CALICE AHCAL - a highly granular SiPM-on-tile hadron calorimeter prototype	LAUDRAIN, Antoine
07:48	[402] Status and plans for the CMS High Granularity Calorimeter upgrade project	Mr QUAST, Thorben
08:06	[669] The CMS High Granularity Calorimeter Scintillator/SiPM Tileboards	REINECKE, Mathias
08:24	[668] The HIBEAM/NNBAR Calorimeter Prototype	DUNNE, Katherine
08:42	[529] Towards the construction of the Mu2e electromagnetic calorimeter at Fermilab	DIOCIAIUTI, Eleonora
