

Phenomenology 2021 Symposium

Monday, 24 May 2021

Axions & ALPs I (14:15 - 16:00)

time	[id] title	presenter
14:15	[1216] An even lighter QCD axion	Dr QUILEZ LASANTA, Pablo
14:30	[1307] The ν DFSZ Axion model dubbed 2hdSMASH	Mr MATLIS, Michael Maxim
14:45	[1349] High quality axions in solutions to the μ problem	Mr BHATTIPROLU, Prudhvi
15:00	[1306] $SU(5) \times U(1)_X$ Axion Model with Observable Proton Decay	RAUT, Digesh
15:15	[1215] Photophilic hadronic axion from heavy magnetic monopoles	SOKOLOV, Anton
15:30	[1239] Hunting for axions in the solar basin	DEROCCO, William
15:45	[1450] B-modes from Post-inflationary Gravitational Waves Sourced by Axionic Instabilities at Cosmic Reionization	LU, Sida
