

Phenomenology 2021 Symposium

Wednesday, 26 May 2021

Higgs III (14:00 - 16:00)

-Conveners: Lingfeng Li

time	[id] title	presenter
14:00	[1171] Studies of the CP properties of the Higgs boson at the ATLAS experiment	CARVALHO, Ana Luisa
14:15	[1437] Searches for new physics in Extended Higgs Sectors in CMS	WAMORKAR, Tanvi
14:30	[1174] Searches for BSM Higgs bosons at ATLAS	GANGULY, Sanmay
14:45	[1143] Beyond the Standard Model Effective Field Theory: The Singlet Extended Standard Model and Higgs Flts	LEWIS, Ian
15:00	[1172] Combined Higgs boson measurements by the ATLAS experiment and their Effective Field Theory interpretations	CHEN, Jiayi
15:15	[1322] Higgs Production in Association with a Dark-Z at Future Electron Positron Colliders	GIFFIN, Pierce
15:30	[1169] Determination of Higgs boson properties in decays to bosons at the ATLAS experiment	AGGARWAL, Anamika
15:45	[1103] Results and Prospects of Radiative and Electroweak Penguin Decays at Belle (II)	HALDER, Soumen
