

Session Program

2 February 2021 to 31 March 2021

SRGW2021 - ARIES WP6 Workshop: Storage Rings and Gravitational Waves

Proposals and Schemes

Thursday 4 March

14:30

Proposals and Schemes

Session | **Location:** Virtual Space | **Convener:** Jorg Wenninger

14:30–15:15

Detection of gravitational waves in circular particle accelerators - a proposal for the LHC

Speaker

Suvrat Rao

15:15–16:00

Storage rings as detectors for relic gravitational-wave background?

Speaker

Andrei Ivanov

16:00–16:40

Update on Theoretical Effects of Gravitational Waves on Storage Rings

Speaker

Raffaele Tito Dagnolo

16:40–17:00

Discussion

17:00
