

Instruments (MDPI): Special Issue “Timing Detectors”

www.mdpi.com/journal/instruments/special_issues/Timing_Detectors

Guest editors:

Matteo Centis Vignali (FBK, RD50) matteo.centis.vignali@cern.ch

Eraldo Oliveri (CERN, RD51) eraldo.oliveri@cern.ch

instruments

A useful document:

- Summarize state-of-the-art
- Provide a reference for technological developments
- Aid in finding new applications

Research and review papers:

- Timing applications
- Basic principles for timing
- Detector technologies
- Modelling and simulations
- Signal processing and electronics
- Time reference and distribution

Submission deadline: 30.04.2020

Open access → **fee...**

- 1400 CHF
- Covered by CERN if an employee is author
- Can be waived for some papers

Looking forward to hear from you!
