

# 16th (Virtual) "Trento" Workshop on Advanced Silicon Radiation Detectors

## Thursday 18 February 2021

### Session 9: LGAD 2 (09:00 - 10:40)

-Conveners: Giulio Pellegrini

| time  | [id] title  | presenter                 |
|-------|---|---------------------------|
| 09:00 | [159] Technology Developments on Thin iLGAD Sensors for Pixelated Timing Detectors                | DOBLAS MORENO, Albert     |
| 09:20 | [160] Performance of the USTC first batch LGADs   | YANG, Xiao                |
| 09:40 | [175] TCT-TPA/SPA studies of single event effects in thin LGADs at ELI Beamline                   | LASTOVICKA MEDIN, Gordana |
| 10:00 | [161] Characterization with a $\beta$ -source setup of the UFSD3.2 production manufactured at FBK | SIVIERO, Federico         |
| 10:20 | [141] A Data-Driven of Test beam related LGAD mortality   | Dr GKOUKOUSIS, Vagelis    |
