US cloud notes from the past week:

=====

Reports from the ADC Weekly and ADCoS meetings:
No meetings (holidays).

General news / issues during the past week:

12/21: ADC Technical Coordination Board:
No meeting this week (holidays).

12/22: ADC Weekly meeting:
No meeting this week (holidays).

MC / Group Production / Reprocessing summaries from the ADC Weekly meeting:

'AOB' summary:

=====

Site-specific issues:

1) 12/17: MWT2 - file transfer errors ("SSL handshake failed: Connection timed out during SSL handshake after 1 attempt"). Related to an issue with http-tpc/webdav transfers. Site was set back to use gsiftp protocol while the problem is being debugged. https://ggus.eu/?mode=ticket_info&ticket_id=149958 (on hold), <https://atlas-adc-elisa.cern.ch/elisa/display/1526?logbook=ADC>.

Follow-ups from earlier reports:

(i) 11/27: SWT2_CPB - file transfer/deletion errors ("500-A system call failed: No such file or directory"). After some new storage systems were brought online it was necessary to restart processes on the gridftp hosts. Issue resolved, https://ggus.eu/?mode=ticket_info&ticket_id=149701 was closed on 12/9.
Update 12/9: Apparently some lingering issue(s). DDM ops reported errors trying, for example, to create a path in the filesystem. ggus 149701 was re-opened.
