## Reports from the ADC Weekly and ADCoS meetings:

https://indico.cern.ch/event/990056/contributions/4166947/attachments/2166915/3657552/weeklyADCoSoperationstatusreport.txt (expert shifter report) https://indico.cern.ch/event/990056/contributions/4166945/attachments/2167108/3657954/210105\_ADCoS.pdf (Armen - ADCoS Weekly)

## General news / issues during the past week:

1/3: Tier-2 sites were drained of jobs. Rod Walker pointed out there was a problem with one of the PanDA nodes (aipanda158). Issue was resolved.

1/4: ADC Technical Coordination Board:

No meeting this week.

1/5: ADC Weekly meeting:

No meeting this week (holidays). Next meeting on 1/12/21.

MC / Group Production / Reprocessing summaries from the ADC Weekly meeting:

'AOB' summary:

\_\_\_\_\_\_

## Site-specific issues:

1) 12/31: BNL - file transfer errors ("SOURCE CHECKSUM Operation timed out 959"). Site admin observed some issues on the gridftp doors, likely causing these errors. Issues were resolved, errors stopped, so <a href="https://ggus.eu/?mode=ticket\_info&ticket\_id=150057">https://ggus.eu/?mode=ticket\_info&ticket\_id=150057</a> was closed on 1/4. <a href="https://atlas-adc-elisa.cern.ch/elisa/display/1595?logbook=ADC">https://atlas-adc-elisa.cern.ch/elisa/display/1595?logbook=ADC</a>.

## Follow-ups from earlier reports:

(i) 11/27: SWT2\_CPB - file transfer/deletion errors ("500-A system call failed: No such file or directory"). After some new storage systems were brought online it was necessary to

1 of 2 1/6/21, 11:36 AM

restart processes on the gridftp hosts. Issue resolved, <a href="https://ggus.eu">https://ggus.eu</a>
/?mode=ticket\_info&ticket\_id=149701 was closed on 12/9.
Update 12/9: Apparently some lingering issue(s). DDM ops reported errors trying, for example, to create a path in the filesystem. ggus 149701 was re-opened.

- (ii) 12/17: MWT2 file transfer errors ("SSL handshake failed: Connection timed out during SSL handshake after 1 attempt"). Related to an issue with http-tpc/webdav transfers. Site was set back to use gsiftp protocol while the problem is being debugged. <a href="https://ggus.eu/?mode=ticket\_info&ticket\_id=149958">https://ggus.eu/?mode=ticket\_info&ticket\_id=149958</a> (on hold), <a href="https://atlas-adc-elisa.cern.ch/elisa/display/1526?logbook=ADC">https://atlas-adc-elisa.cern.ch/elisa/display/1526?logbook=ADC</a>.
- (iii) 12/30: MWT2 job failures with "[ERROR] Server responded with an error: [3012] Internal timeout." Related to some network testing at the IU site. <a href="https://ggus.eu/?mode=ticket\_info&ticket\_id=150051">https://ggus.eu/?mode=ticket\_info&ticket\_id=150051</a> in progress, <a href="https://atlas-adc-elisa.cern.ch/elisa/display/1592?logbook=ADC">https://atlas-adc-elisa.cern.ch/elisa/display/1592?logbook=ADC</a>. Update 1/5: No more errors related to networking ggus 150051 was closed.
