

2021 CAP Virtual Congress / Congrès virtuel de l'ACP 2021

Wednesday, 9 June 2021

W1-1 Photonics and Nano-Optics (DAMOPOC) / Photonique et nano-optique (DPAMPC) (11:45 - 12:30)

-Conveners: Jens Lassen

time	[id] title	presenter
11:45	[578] (I) Scanning near-field optical microscopy: from physics to spectroscopic applications	Prof. FANCHINI, Giovanni
11:50	[579] (I) Nanophotonic platforms for quantum optics with atomic ensembles	Prof. BAJCSY, Michal
11:55	[99] (G*) Nanoscale polymer blister formation using single femtosecond pulses	GODFREY, Alan
11:59	[235] Study of photoluminescence in plasmonic nanoparticles	BRASSEM, Grant
12:03	[439] Nonlinear optical properties of graphene: liquid-phase exfoliation vs chemical vapour deposition	BAKER-MURRAY, Aidan
12:07	Group discussion
