W2-9 Contributed Talks II (DCMMP) / Conférences soumises II (DPMCM) (12:45 - 13:30)

-Conveners: Michel Gingras

time	[id] title	presenter
12:45	[31] Valley-controlled transport in graphene/WSe ₂ heterostructures under an off-resonant polarized light	ZUBAIR, Muhammad
12:48	Questions & answers	
12:50	[103] Coherence transfer in two-pulse double quantum (DQ) and five-pulse double- quantum modulation (DQM) sequences in EPR: Orientation selectivity and distance measurement	SALAH, Hamidreza
12:53	Questions & answers	
12:55	[119] Electronic transport properties of tailored two dimensional materials for chemical sensors	Ms ABARASHI, Maryam
12:58	Questions & answers	
13:00	[176] Modeling Amorphous Silicon Using Neural Networks	Dr FADAIE, mojde
13:03	Questions & answers	
13:05	[204] Reducing Majorana Hybridization via Periodic Driving	MIN, Brett
13:08	Questions & answers	
13:10	[206] Identifying and Isolating Flat Bands in 2D Systems	BAE, Jun Hyung
13:13	Questions & answers	
13:15	[219] Symmetry Breaking Effects of Instantons in Parton Gauge Theories	GANESH, Shankar
13:18	Questions & answers	
13:20	[355] Interplay Between Electrostatic and Hydrophobic Interactions in Aqueous Dispersions of OSA-Modified Phytoglycogen Nanoparticles	Ms MIKI, Carley
13:23	Questions & answers
