

2021 CAP Virtual Congress / Congrès virtuel de l'ACP 2021

Thursday 10 June 2021

R2-6 Contributed Talks V (DCMMP) / Conférences soumises V (DPMCM) (12:45 - 13:30)

-Conveners: Michel Gingras

time	[id] title	presenter
12:45	[467] Fundamental study of plasma-graphene interactions in Argon/B2H6 plasma	Dr VINCHON, Pierre
12:48	Questions & answers	
12:50	[241] (G*) Semi-metal insulator phase transitions in graphene - the role of anisotropy	MEGGISON, Brett
12:53	Questions & answers	
12:55	[246] (G*) N-heterocyclic carbene adsorption and self-assembly on Au(111): Fine-tuning the binding mode	GROOME, Ryan
12:58	Questions & answers	
13:00	[337] (G*) The Journey of a single polymer chain to a nanopore	Mr AFRASIABIAN, Navid
13:03	Questions & answers	
13:05	[340] Tradeoffs for reliable quantum information storage from graph invariants	Mr BASPIN, Nouédyn
13:08	Questions & answers	
13:10	[345] (G*) Effective Charges in Entropy Stabilized Oxides	AFSHARVOSOUGHI, Tahereh
13:13	Questions & answers	
13:15	[356] (G*) Negative Differential Resistance in Carbon-based Cryogenic Composite Nanomaterials	WONG, Victor
13:18	Questions & answers	
13:20	[372] (G*) High carrier mobility and anisotropic electronic structure in double-helix SnIP nanowires	PURSCHKE, David
13:23	Questions & answers
