

# Online Strangeness in Quark Matter Conference 2021

## Tuesday, May 18, 2021

### Open and New (Correlations): Parallel 2 - Room C (11:10 AM - 12:50 PM)

-Conveners: Yen-Jie Lee

time	[id] title	presenter
11:10 AM	[41] Indications for a non-monotonic pattern in the $(T, \mu_B)$ -dependence of the specific viscosity	LACEY, Roy
11:30 AM	[47] Quarkonia excited state suppression in pp and p-Pb with ALICE	DING, Yanchun
11:50 AM	[42] Building a testable shear viscosity across the QCD phase diagram	MCLAUGHLIN, Emma
12:10 PM	[195] Hydrodynamic description of D meson production in high-energy heavy-ion collisions	DING, Chi
12:30 PM	[63] Study of kaon-proton interactions with ALICE at the LHC	KORNAKOV, Georgy
