

Online Strangeness in Quark Matter Conference 2021

Wednesday, 19 May 2021

Open and New (Charge and Flavor): Parallel 3 - Room C (09:30 - 11:10)

-Conveners: Thomas Ullrich

time	[id] title	presenter
09:30	[81] Event-shape studies of strangeness production in $\sqrt{s} = 13$ TeV pp collisions with ALICE	NASSIRPOUR, Adrian Fereydon
09:50	[123] Directed flow of D mesons at RHIC and LHC energy within a transport approach: non-perturbative dynamics, vorticity and electromagnetic fields	PLUMARI, Salvatore
10:10	[106] Hyperon-type dependence of global polarization in heavy-ion collisions	LI, Hui
10:30	[225] CME search at STAR	HU, YU
10:50	[210] Shear-induced spin polarization and "strange memory" in heavy-ion collisions	Dr LIU, Shuai
