

Online Strangeness in Quark Matter Conference 2021

Wednesday, 19 May 2021

Heavy Flavor (Open charm): Parallel 3 - Room D (09:30 - 11:10)

-Conveners: Xuan Li

time	[id] title	presenter
09:30	[57] Charm-baryon enhancement in small systems measured with ALICE and implication on the charm fragmentation fractions	ZHU, Jianhui
09:50	[189] Measurements of electrons from heavy-flavor hadron decays in 27, 54.4, and 200 GeV Au+Au collisions in STAR	ZHANG, Shenghui
10:10	[15] Temperature dependence of the properties of open heavy-flavor mesons	MONTAÑA, Gloria
10:30	[25] Quarkonia and heavy quark diffusion in the hot gluonic medium	Dr SHU, Hai-Tao
10:50	[56] Heavy-flavour production in small systems and evolution with multiplicity with ALICE	ACHARYA, Shreyasi
