

Online Strangeness in Quark Matter Conference 2021

Thursday, May 20, 2021

Astrophysics and Hadronic Interactions: Parallel 4 - Room C (9:30 AM - 11:10 AM)

-Conveners: Christoph Blume

time	[id] title	presenter
9:30 AM	[131] Early quark deconfinement in compact star astrophysics and upcoming experiments at NICA	BLASCHKE, David
9:50 AM	[78] Measurement of the antinuclei nuclear inelastic cross sections with ALICE and implications for indirect Dark Matter searches	ŠERKŠNYTĒ, Laura
10:10 AM	[5] Strange baryons in nuclei and neutron stars	Dr TOLOS, Laura
10:30 AM	[232] Strangeness freeze-out in early universe	-YANG, -Cheng Tao
10:50 AM	[18] Estimating Compressibility by Maximal-mass Compact Star Observations	SZIGETI, Balazs Endre
