

Session Program

19-20 Jul 2010

RD51 mini week

WG1: Technological aspects

CERN, 13/2-005

Monday 19 July

14:00

WG1: Technological aspects

Session | Location: CERN, 13/2-005

14:00–14:20

Infrared thermal stretching of GEM foils

Speaker

Mr Mike Staib

14:20–14:50

Experience with micromegas chambers with resistive strips

Speaker

Givi Sekhniaidze

14:50–15:10

Recent Micromegas Activities in USTC

Speakers

Liang Guan, Dr Zizong Xu

15:10–15:30

Break

15:30–16:00

Resistive meshes and tests of resistive THGEMs

Speaker

Vladimir Peskov

16:00–16:20

Update from CMS MPGD project

Speaker

Archana Sharma

18:00
