

Session Program

19-20 Jul 2010

RD51 mini week

WG7: Test beam

CERN, 13/2-005

Tuesday 20 July

09:00

WG7: Test beam

Session | **Location:** CERN, 13/2-005**09:00–09:20** **Report from June test beam****Speaker**

Matteo Alfonsi

09:20–09:40 **Micromegas ILC-TPC beam tests with a high intensity hadron beam****Speaker**

Paul Colas

09:40–10:00 **Preliminary results with CMS Triple GEM prototypes****Speaker**

Stefano Colafranceschi

10:00–10:20 **Report from LAPP group****Speaker**

Maximilien Chefdeville

10:20–10:40 **Coffee break****10:40–11:00** **GEM Tracker: results from June test beam and work in progress****11:00–11:20** **3D Track Reconstruction algorithm for Micromegas tracker****11:20–11:40** **August test beam: tentative setup****11:40–12:00** **GEM and THGEM detectors for hadron calorimetry: test beam plans**

13:00
