

The WLCG HEP-SCORE deployment task force

Tuesday, 16 March 2021 18:00 (25 minutes)

Following up from the work of the HEPiX benchmarking working group, WLCG launched a task force primarily tasked to concretely propose a successor to HEP-SPEC 06 as standard benchmark for CPU resources in WLCG. We will present an overview of the mandate and composition of the task force and will report on status and plans.
