Exploring Right Handed Neutrinos at ILC

Tuesday 16 March 2021 23:40 (19 minutes)

Right handed neutrino is proposed as the extended of SM. We consider the possibility of exploring the RHN at ILC500. We study the RHN pair production using Delphes mini-DST.

Time Zone

Asia/Pacific

Primary author: NAKAJIMA, Jurina (SOKENDAI)

Co-authors: JEANS, Daniel (KEK); DAS, Arindam (Kyungpook National University); FUJII, Keisuke (High Energy Accelerator Research Organization (JP))

Presenter: NAKAJIMA, Jurina (SOKENDAI)

Session Classification: PD1/PD3: Theoretical Developments / Physics Analyses

Track Classification: Physics and Detectors Tracks: PD3: Physics Analyses
