SDHCAL technological prototype test beam results

Thursday, 18 March 2021 11:20 (20 minutes)

The Semi-Digital Hadronic Calorimeter (SDHCAL) is proposed to equip the future ILD detector at ILC. A technological prototype of the SDHCAL developed within the CALICE collaboration has been extensively tested in test beams. The talk will summarize the prototype performances in terms of hadronic shower reconstruction from the most recent analyses test beam data.

Time Zone

Europe/Africa/Middle East
