The Institute for Particle Physics Phenomenology has organized a workshop

IPPP topical meeting on physics with high-brightness stored muon beams

10-11 February 2021

Europe/Rome timezone

Therefore, the IPPP invites you to a topical workshop on the physics opportunities that are presented by high-brightness stored muon beams. The meeting will be held online during the afternoon and early evening of the 10th and 11th February 2021.
