

## Get to Know on Wonder.me with Technical Troubleshooting

*Sunday 18 July 2021 21:00 (1 hour)*

During HASCO, you will have the opportunity to socialise with participants in presence and remote on Wonder.me (<https://www.wonder.me/r?id=b3c35740-540e-4be2-85bf-57eed534e9c2>, password was sent to you via email) to play games, discuss the lectures, or simply talk and hang out.

At the same time, we will provide technical support for the setup steps of JupyterHub before you will use the software during the school's hands-on sessions! Instructions for the set-up can be found on GitLab: <https://gitlab.cern.ch/chscheul/hasco-2021-hands-on-sessions>
