

Task 6.3

Coordination of education and training activities
JRC, CIEMAT

Arjan Plompen, EC-JRC Geel, Belgium

SANDA meeting 11-2-2021

Content

This task will promote that the research activities within the project result in PhD and Master theses and to favour the training of young scientist with working visits to the facilities associated to the project. A special event of the task will be the organization of one training course specialized in Nuclear Data for increased Safety of the nuclear and radiological EU installations. It will be open to the participants in other EU projects related to the field. This school will be organized as special edition of known schools on nuclear R&D. Initial contacts had been made with the organizers of the series of the Nuclear Resonance Analysis schools. No fee will be requested and financial support will be allocated to provide travel support to a fraction of the students. Cooperation with ENEN will be set-up.

1 deliverable, 0 milestones

- Deliverable

6.7	Report on school on nuclear data research methods and tools and E&T activities	6	JRC	R	PU	12
-----	--	---	-----	---	----	----

The deliverable was not realized.

It can only be considered for execution once students and lecturers can travel.

Hands-on courses: lectures with practical exercises.

Evaluation to continue, modify or cancel postponed to August 2021

Reporting

- Collect from the SANDA participants
 - Master students contributing or having contributed
 - PhD students contributing or having contributed
 - Events where SANDA was used/explained in training events.
