

Benasque 2014 workshop

After the discovery: hunting for a non-standard Higgs sector

April 06-18, 2014

<http://benasque.org/2014higgs/>

As a first bulletin, here are some updated information about the workshop:

- the registration deadline is approaching (Jan. 20). Please take a few minutes to book the registration form
- our funding applications have been rather successful and it allows us to reduce the registration fees to 100 euros, including the bus ride from Barcelona and return.
- a list of topics that we'd like to cover during the workshop has been posted to the program page. Some mini-review talks will introduce these topics and foster some discussions.

On the logistic side:

- as explained in the workshop webpage, a bus ride will be organized on Sunday April 6 afternoon from Barcelona to Benasque and a return on Friday April 18 in the morning (see the [webpage](#) for details).
- the secretaries of the center will provide help to arrange your accommodation. The form will be applied from January 15 to March 15. Some examples of accommodation are given on the [webpage](#).

Aurelio, Christophe, Filip and Ian.
